

IX. DATES OF PUBLICATION AND BIBLIOGRAPHICAL NOTES
(contd from p.743)

Aiton, W., Hortus Kewensis.

Add (to Fl.Mal. I, 4, 1954, clxvi): cf. J.Bot. 61 (1923) 290.

In a letter J.F.Jacquin (Aug.7, 1789) notifies his father of the despatch from England of a copy of this book, the first copy that was ready. He states that it will be 4 weeks before anyone else can procure it. The presumption that it was published in the first quarter of 1789 is not true and the publication date must be postponed to September of that year.

Blume, C.L., Flora Javae, etc. 1828-1851.

Add: cf. Börsenbl.Deutsch.Buchhand. n.10 (4. Febr.1851) 110, n.648.

Fascicles 36-39 (Filices) were received at Leipsic in the week preceding Febr.4, 1851, and listed about the same time as in Wiegmann's Archiv, in Gersdorf's Repert., and in Allgem.Bibliogr.Deutschl. (cf. Fl.Mal.Bull. p.731). It seems doubtful that they appeared in 1849.

Blume, C.L., Rumphia, etc.

Add: cf. Börsenbl.Deutsch.Buchhand. n.51 (27.Juni 1837) 1133.

As fascicles 10-12 were received at Leipsic in the week of 18-24 June, it will be safe to accept June 1837 as publication date.

Boissier, E., Diagnoses plantarum orientalium novarum.

Add (to Fl.Mal. I, 4, 1954, clxxiii): cf. Bonplandia 2 (1.Sept.1854) 202; ibid. 3 (15.März 1855) 75.

Contrary to the years of publication given by Pritzel and the date on the title-page (1853) vol.2, pt 13, and vol.3 (series secunda) pt 1 were issued in 1854.

The Canadian Field-Naturalist. 1919 onwards.

The cited paper gives full data on this journal and its predecessors, including dating, misnumbering of volumes and issues, dates of receipt at the National Museum, and paging.

The predecessors are: Ottawa Field-Naturalists' Club, Transactions, 2 vols, 1880-87, The Ottawa Naturalist, 32 vols, 1887-1919.

Candolle, A.P. de, Mémoires sur la famille des Légumineuses.

N o t e. De Candolle's publication is an informal commentary discussing the principles adopted for the classification of the Leguminosae in his Prodrômus. The Diagnoses of 14 new genera and 52 new species of that family were published in Ann.Sc.Nat. 4 (Jan.1825) 90-103.

G a e r t n e r, J., De fructibus et seminibus plantarum.

Add (to Fl.Mal. I, 4, 1954, clxxxiii; Fl.Mal.Bull. n.15, 1960, 735): cf. G.K.(not B.) Brizicky in litt. (May 1960, mimeogr.).

After having received a letter by W.T.Stearn, the author reconsidered the date of vol.1, and agrees that end 1788 must be accepted (perhaps even Oct.).

Note. From bound copies it appeared impossible to make out in which order the families of part I were issued. Fortunately an unbound copy in the original wrappers, from which the above-mentioned data were derived, was located in the Library of the Royal Academy of Sciences at Amsterdam. The dates 12 Dec. 1910 and 7 Dec. 1913 of Lieferung 1 and 11 respectively, are written by Koorders on signed copies presented to the Academy with his compliments.

Add (to Fl. Mal. I, 4, 1954, ccii): cf. Bonplandia 3 (15. Jan. 1855) 16.

From a news letter it is evident that part 3 was issued in Dec. 1854.

Add (to Fl. Mal. I, 4, 1954, ccii; Fl. Mal. Bull. n. 15, 1960, 739): cf. Bonplandia 3 (1. Oct. 1855) 279, (1. Dec.) 328, (15. Dec.) 344; Allg. Bibliogr. f. Deutschl. 1856 (n. 43, 23. Oct.) 352; *ibid.* 1860 (n. 10, 8. März) 73.

Addenda:

Vol.	Part	Pages	Plates	Dates
11	1	1-160	1-2	Nov. 1855
	2	161-336	3-4	Sept. 1855 (instead of Oct.)

N o t e. The references in the Allg. Bibliogr. did not reveal any important new facts, save that it drew my attention to a discrepancy in the pages for parts 3 and 4 of vol. 1². In the Buitenzorg copy (in original wrappers) pt 3 contained p. 353-512, pt 4: 513-704. In the Allg. Bibliogr. the pages are respectively stated to be 353-560 and 561-704, the same as given by Kuntze l.c.

Fortunately the dates of issue of these parts lie only a month apart, so it will hardly make any difference.

Cf. Bonplandia 9 (1861) 274 (1 Oct.), 369 (15 Dec.).

The first and only volume was published in 1861. An announcement, dated August 1861, that it had just appeared was printed in Bonplandia l.c. p. 274.

Add (to Fl. Mal. I, 4, 1954, ccxii): cf. Bonplandia 1 (1. Dec. 1853) 254; *ibid.* 2 (15. Febr. 1854) 51; *ibid.* 2 (15. Aug. 1854) 194; *ibid.* 3 (1. Febr. 1855) 27; *ibid.* 4 (15. Dec. 1856) 400; *ibid.* 5 (1. Juli 1857) 188.

Information found in above-cited periodical made it possible to state the approximate month of appearance of several parts, i.e.:

Part	Approx. Date
3	Nov. 1853
4	Feb. 1854
5	July 1854
6	late 1854 or early 1855
9	Dec. 1856
10	before July 1857

V r i e s e, W.H. d e, Illustrations d'Orchidées des Indes orientales néerlandaises, etc.

Cf. Pritzel, *Thes. Lit. Bot.* 1872; H.G. Reichenbach f., Bonplandia 4 (15. Juni 1856) 186-188.

The date given by Pritzel is 1854.

Bonplandia l.c. contains a review stating that the work consisted of 3 fascicles of which 1-2 were issued in 1854, n.3 in 1855. The plates are not numbered, nor are the pages, but an enumeration of the plates in the order they were received is given. The number of plates in each fascicle is not mentioned.
